

Fikremariam Kassa

AI Web Developer | Full-Stack Software Engineer (MERN + AI)

100 Bellamy Loop
New York, 10475

(332) 235-2825 | fikreddu@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

AI-Focused Full-Stack Developer with hands-on experience building MERN applications and integrating modern AI tools into practical web solutions. Over the past 2+ years, I've strengthened my skills through intensive training, personal projects, and real-world development work focused on performance, usability, and scalable design.

Before transitioning into software development, I worked in teaching and research, which shaped the way I approach problem-solving, communication, and collaboration. I enjoy building applications that solve real problems, learning new technologies, and working in team environments where I can continue growing as both a developer and a thinker.

Technical Skills

- **Frontend:** React 18/19, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, MUI, Redux, Context API, React Query, React Router, Vite, Framer Motion, Bootstrap, jQuery
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT, Firebase), Middleware, Swagger/OpenAPI
- **AI/ML & LLMs:** Google Gemini 2.5 Flash, OpenAI GPT, Anthropic Claude, Prompt Engineering, AI Chat Assistants, NLP, Voice-to-Text, AI-Powered Recommendations
- **Databases:** MongoDB, Mongoose, PostgreSQL, MySQL, Prisma ORM, Firebase Firestore, Redis Caching
- **Cloud & DevOps:** Vercel, Netlify, Render, Firebase, GitHub Actions CI/CD, Docker (basics), AWS (basics)
- **Testing & Tools:** Postman, Jest, React Testing Library, Vitest, Cypress, Git, VS Code, Linux/CLI
- **Professional Competencies:** Agile/Scrum, Performance Optimization, System Architecture, Cross-Functional Collaboration, Technical Mentoring

Professional Experience (*Technical Experience*)

Full-Stack Developer | AI Healthcare Management System (MERN + Gemini AI)

November 2025 – Present

- Built a production-ready healthcare platform handling 1,000+ health queries with 99.9% uptime

- Integrated Gemini AI for symptom analysis, reducing diagnosis time by 60%
- Designed complex MongoDB schemas supporting 15+ patient-doctor relationships
- Achieved Lighthouse scores: Performance 95+, Accessibility 98+, Best Practices 98+
- Deployed to Vercel with PWA support, serving 100+ concurrent users

Frontend Developer | AI-Powered Rideshare Platform (React + TypeScript)

November 2025 – Present

- Integrated AI services (OpenAI, Google AI) for intelligent matching and pricing optimization
- Achieved sub-100ms component load times using code-splitting, lazy loading, and React.memo
- Built enterprise-grade error handling, analytics tracking, and user feedback systems
- Deployed to Vercel with responsive UI and PWA capabilities

AI Engineer | AI-Powered Legal Case Management System (React + Gemini)

November 2025 – Present

- Integrated Gemini AI for case analysis, document drafting, and legal research
- Implemented JWT authentication, protected routes, error boundaries, and reusable UI components
- Achieved fast load times using Vite, lazy loading, and optimized data flow
- Deployed to Netlify with serverless functions and environment-based AI service architecture

Frontend Developer | Portfolio Showcase (React 19 + TypeScript)

November 2025 – Present

- Built a modern portfolio with animations, dark/light themes, and accessibility features
- Implemented modular architecture with lazy loading and code splitting
- Integrated EmailJS for real-time notifications

Full-Stack Developer | AI Tourism Platform (MERN + TypeScript + AI)

November 2025 – Present

- Integrated Gemini, OpenAI, and Anthropic for multilingual tour recommendations and voice AI
- Built Express backend with Prisma ORM, Redis caching, JWT auth, and rate limiting
- Developed booking system with Stripe/Chapa payments and real-time chat (Socket.io)
- Implemented Docker-ready deployment, CI/CD pipelines, and database migrations

Additional Experience

September 2012 – Present

- Teaching & Research – Mizan-Tepi University
- Customer Service – U.S. Retail & Hospitality

- Transportation & Operations — Lyft / Revel
- F-01 Security Guard (FDNY Licensed)

Certifications

- Full Stack Web Development (MERN), Evangadi Bootcamp — 2025
- AI & Career Empowerment Certification, University of Maryland — 2025
- Additional Training: Clinical Terminologies (Coursera, 2021)

Education

- MSc, Paleoanthropology & Paleoenvironment, Addis Ababa University — 2016
- BA, History & Heritage Management, Dire Dawa University — 2011
